

## **Albuterol Sulfate Inhalation Aerosol - Cipla**

The FDA announced a consumer-level recall of six lots of Cipla's albuterol inhalation aerosol because of a complaint for one inhaler where leakage was observed through the inhaler valve. Out of an abundance of precaution, six lots manufactured using the same lot of valves are being recalled. Automated dialers will alert members with phone numbers to contact their pharmacy for a potential replacement.

Product	Albuterol Inhalation Aerosol 90mcg
Recall identification date	7/7/2023
